

Plots to be Blessed for Users Meeting 2013

Gareth Kafka
Harvard University
6/7/13

Overview

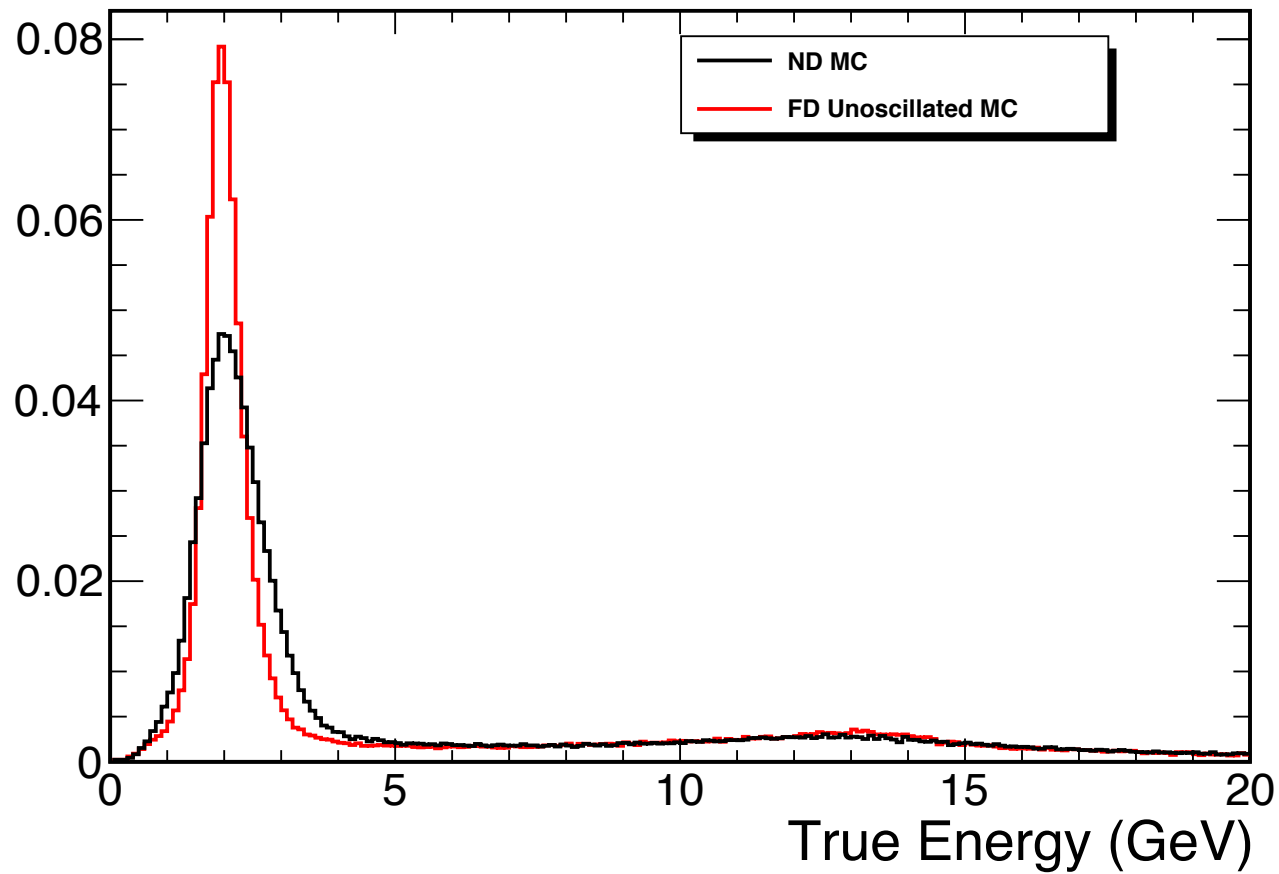

- These plots will be used on a poster for the Fermilab Users Meeting 2013
- The poster is on the general ν_e analysis, with more emphasis on Extrapolation and Sensitivities as there will be separate posters for the MRCC method and PIDs
- To be blessed:
 - Detector Event Rates
 - Extrapolation Prediction and MDC Validation overlays

Detector Event Rates

Area Normalized ν_μ CC Event Rates

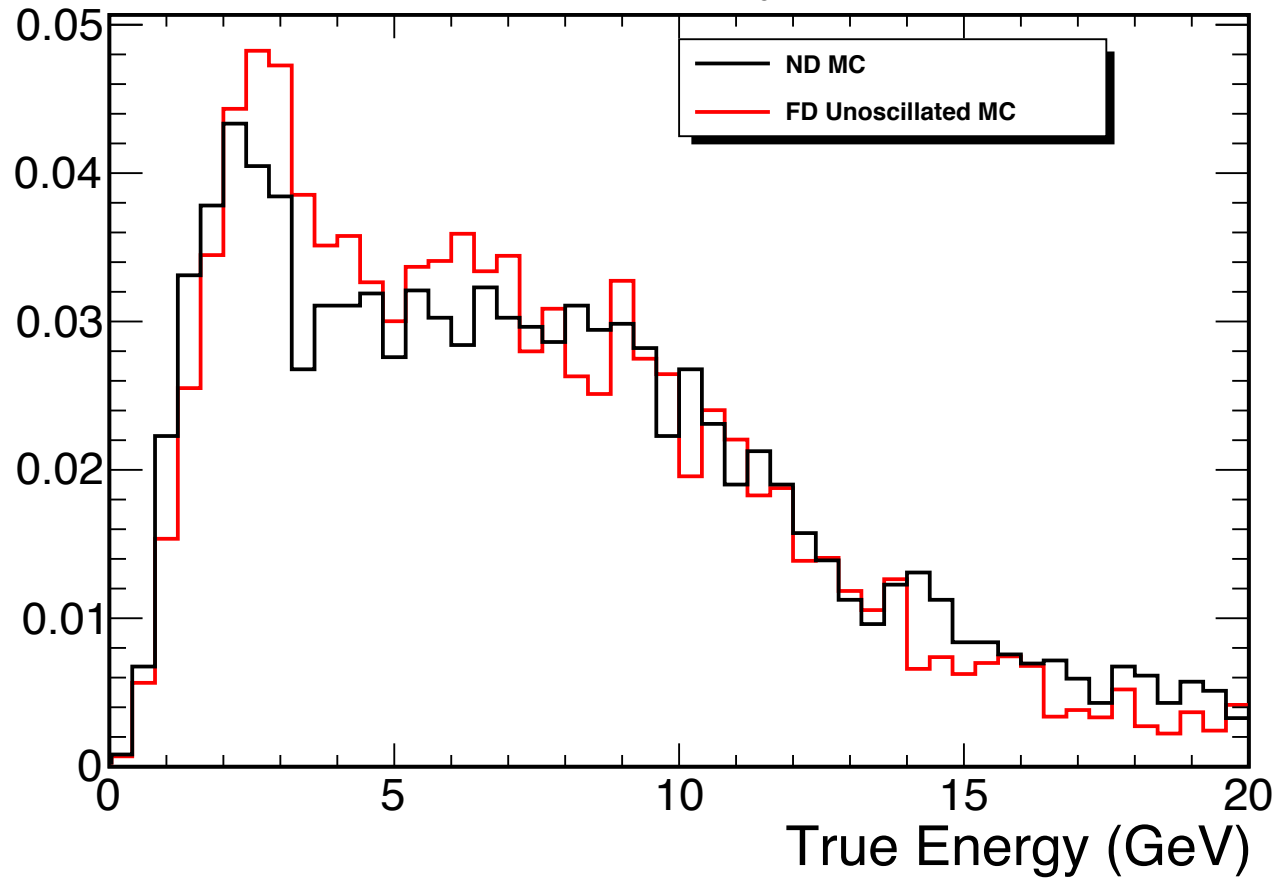

Detector Event Rates

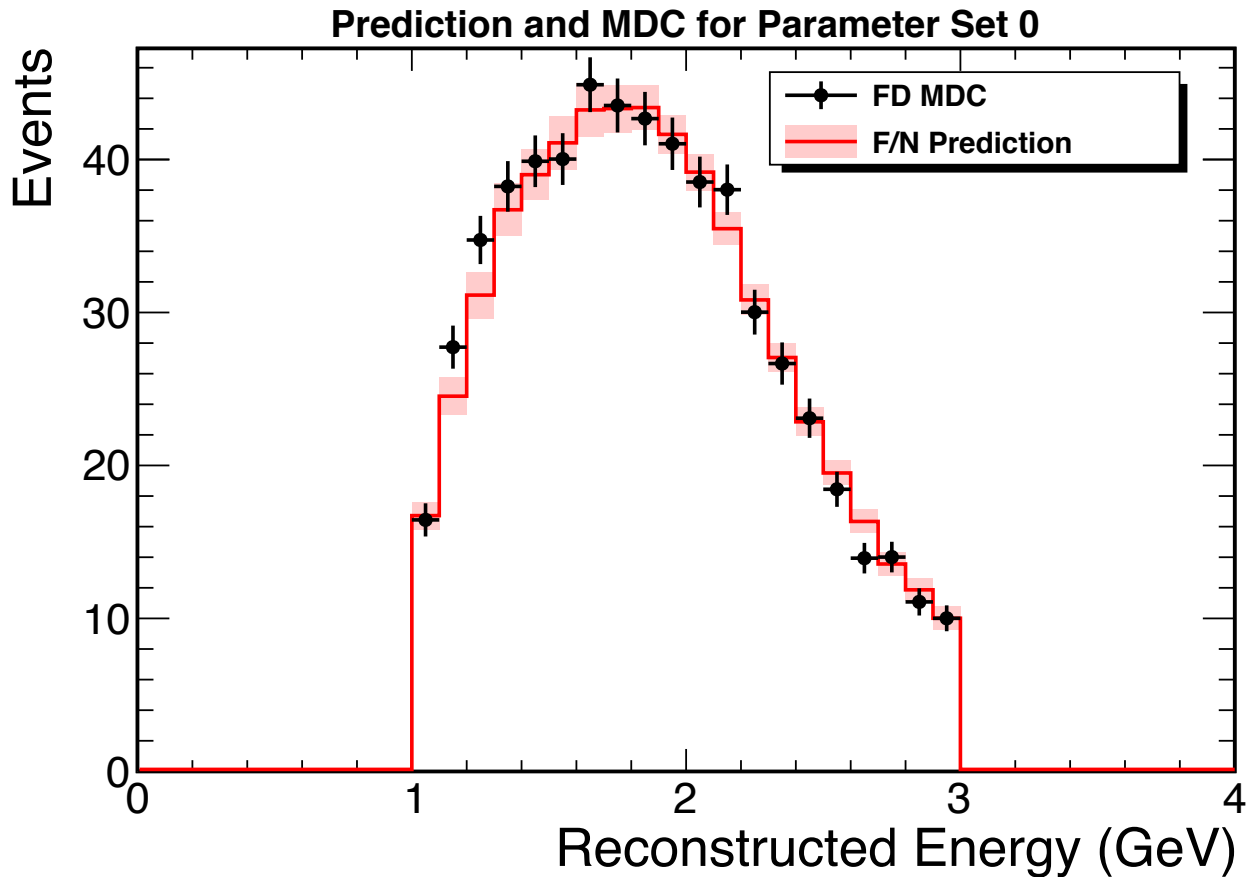

Area Normalized Beam ν_e CC Event Rates

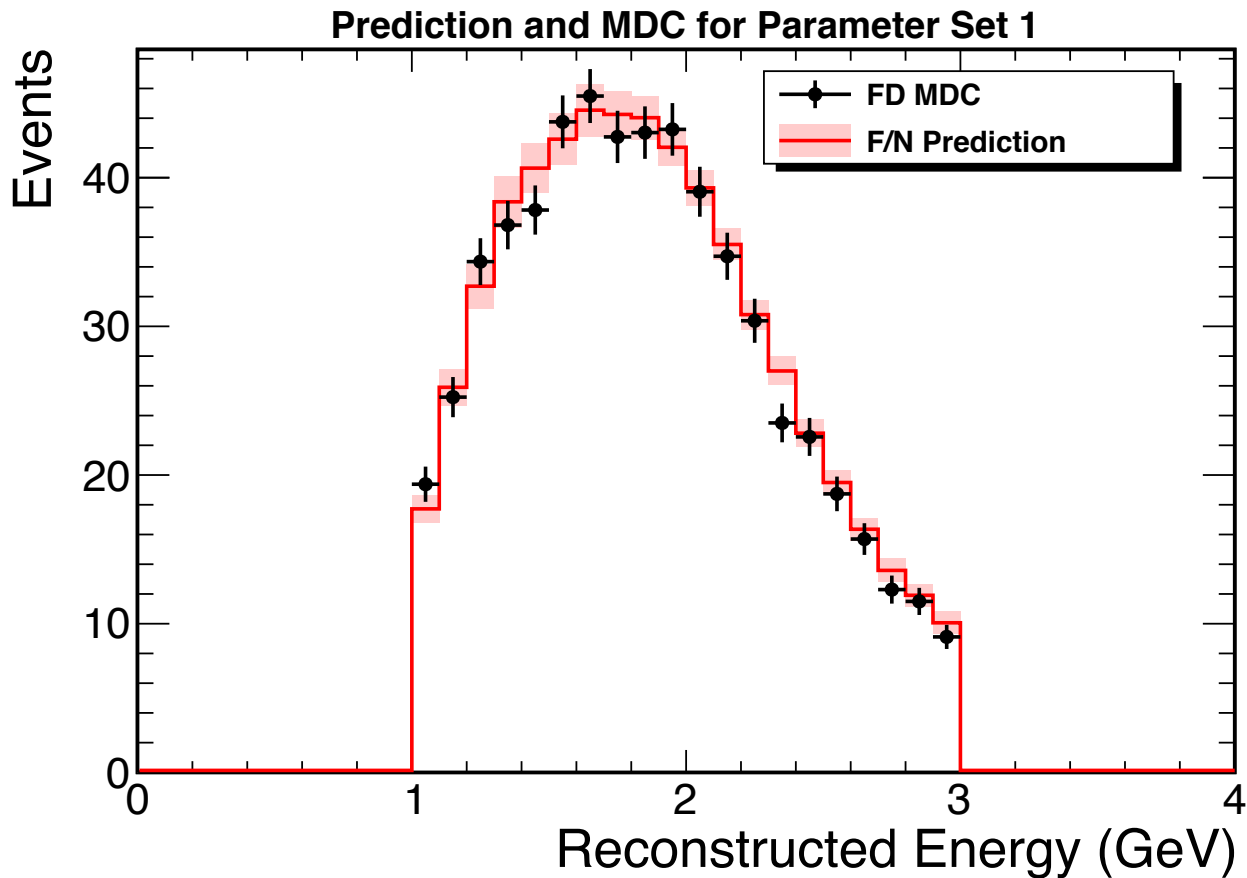

Comparison Plots

MC scaled to 18×10^{20} POT
